

Fredericia Shipyard A/S (Fredericia Skibsværft A/S) will have a

- new name
- new location with
- new expanded facilities

Under the name FAYARD A/S, Fredericia Shipyard A/S has been secured for the future as of 2011.

As from January 2011 the shipyard will be established in an area located at Lindøe on Fuen. Lindøe Shipyard was founded by A. P. Møller/Mærsk.

At the completion of the reconstruction of the area, the new repair shipyard will have three modern dry docks surrounded by approx. 700 meters repair quay and crane facilities 40-100 tons. Two of the docks will have the dimensions 280 x 45 x 7 meters and the third 130 x 30 x 8 meters. In addition, the shipyard will operate workshops, staff facilities and a building for administrative purposes. In total, the shipyard will cover an area of approximately 100.000 sqm.

The name Fredericia Shipyard will be changed to FAYARD A/S when entering the new expanded facilities.

As of January 2011, FAYARD A/S will emerge as a top modern repair shipyard equipped with all available permits of the present time and placed out of reach of habitation areas. Those features will help characterize the shipyard as secured for the future.

We look very much forward to serving the present and new customers of the shipyard at this new facility as of 2011.

Please do not hesitate to raise any questions or queries with us on this occasion.

Regards

FAYARD A/S
