

Dear Sirs,
FAYARD is naturally present at The Danish Maritime Fair 25.-27. October 2016 in Copenhagen 09:00-17:00

When attending please visit us at our stand at "Maritime Cluster Fyn" stand 0820 and let's have an informal dialog about your potential project-opportunities and our facilities, services and business model.

FAYARD presence and contact information:

- 25.-26. Thomas Andersen ta@fayard.dk +45 20 73 60 00
- 25.-27. Ivan S. Larsen isl@fayard.dk +45 21 61 55 22

You are naturally welcome to contact us at any time.

Fact: **The Ballast Water Management (BWM) Convention will enter into force** on 8. September 2017.

Cause: The Ballast Water Management Convention was ratified on 8th September 2016 with 52 signatories representing +35% of Gross World Tonnage.

Effect: Any vessel carrying out a Special Survey including IOPP Certificate renewal will be required to install an approved Ballast Water Treatment Systems (BWTS) prior to certificate renewal.

Action: Knowing vessels well, FAYARD offers a turnkey retrofit installation for most types of BWTS with strong focus in a efficient and fast high-quality installation of the Owner 's BWTS choice.

HULL TREATMENT

FAYARD has more than doubled it's high pressure water jetting capacity and can now treat up to app. 3,500m2 per day. Price wise, FAYARD offers the same rates per m2 for the two treatment solutions; high pressure water jetting and traditional grit blasting.

FAYARD is approved by local authorities for both hull treatment solutions, and we are aiming for the ISO 14001 final certification December 2016.

DOCKS UP TO 500.000 DWT
